PESCALEX project is funded by the EU LEONARDO DA VINCI Programmes. IRL-05 IRL-05-B-F-LA-153180 / LLP/LdV/TOI/2008/IRL-509.

## CONDITIONS

### PESCALEX DIAGNOSTIC TOOL SIMULATION draw

- The aim of the draw is to publicize the new PESCALEX DIAGNOSTIC TOOL and to receive constructive feedback from the users
- The participation is open and free for all the participants of AQUACULTURE EUROPE 2010 in PORTO
- The DRAW is open on Wednesday 6<sup>th</sup> of OCTOBER 2010 to 18.00 on Thursday 7<sup>th</sup> of OCTOBER 2010.
- The winner of the i-PAD will be drawn from all the entries 18.30 pm on Thursday 7<sup>th</sup> of OCTOBER 2010 in Booths 10 & 11.
- In order to participate you must visit booths 10 & 11 and get the history card as a memo from a fish farm or a diagnostic laboratory.
- You then log on the pescalex diagnostic tool in the designated PC and use the tool to log your history information navigating through the process until you submit your data log and send it to a fish health expert or a farmer.
- After the data log and submission you give your views on the concept and tool functionality as well as new suggestions for the future improvement of the tool in front of a web camera stating your name. All the comments will be taken seriously into consideration for the tool development.
- After this you are going to automatically receive in your email the data log you submitted as well as the potential diseases that the tool identified that fit your history data.

Join us, play, tell us your views and you might be the one who leaves PORTO with an I-PAD!!
