

FREE ONE DAY COURSE

on

Marine Operations

for Marine Energy Projects

25th November 2011

Orkney College Maritime Studies Building, Stromness, Orkney, Scotland

This course is part of a series of short courses being developed by the Aqua-RET (Aquatic Renewable Energy Technologies) consortium¹. Aqua-RET is an EU-funded Leonardo da Vinci project and is currently in its second phase. During the first phase the project consortium successfully developed an e-learning tool (www.aquaret.com) which was supported by a series of posters.

Topics to be covered during this course are:

- 1. Introduction to Marine Operations
- 2. Typical Marine Conditions
- 3. Vessels, Equipment and Personnel
- 4. Method Planning
- 5. Permitting
- 6. Marine Accidents / Health and Safety

Participation is **free** and registrations will be accepted on a first-come first-served basis and places are limited. Please register by emailing: fiona.macisaac@aquatera.co.uk

¹ Aqua-RET 2 consortium: The European Ocean Energy Association (Belgium); The Wave Energy Centre (Portugal); Aquatera Ltd (UK); Centre for Renewable Energy Sources and Saving (Greece); La Tene Maps (Ireland) and AquaTT (Coordinator- Ireland).
